"KOSTER, BRIDGETON, N. J."

"WELL GROWN AND WELL GRADED"

ALL GOODS ARE OFFERED

AND SOLD UNDER THE TERMS

GIVEN IN OUR VARIOUS LISTS

## KOSTER & CO.

NURSERYMEN BRIDGETON, N. J.

#### STRICTLY WHOLESALE

JANUARY 1927

This list supersedes all previous lists

All offers are subject to prior sale, shortage or failure of crops, or other causes beyond our control. We give no warranty, express or implied, and will not be in any way responsible for the results of planting or forcing of any plants, roots or shrubs sent out.

While we take great care in not booking more orders than our stock warrants, we reserve the right to pro-rate all orders if at the time of digging we find shortages do exist.

Azalea hinodegiri, field grown without irrigation.

#### Lilacs,

Our Lilacs are grafted or budded very low on privet; they will quickly get on own roots after transplanting provided the union is placed about four inches below the surface of the ground.

The varieties marked \* belong to a new class of Lilacs, the "Early Lilacs," a cross between one of the early flowering Lilacs and Syringa Giraldi. This cross originated a new race of tall growing Lilacs, which flower before those now known.

We offer a "lining-out" grade; these are well branched plants 12-18 in. high. The other plants offered are 18-24 in. or larger according to variety.

Vulgaris, very strong plants, ft. 3-4		50.00
JAN VAN TOL, fine plants, minimum two branches,	Each	\$ 2.00

This variety was universally admired at London and other Flower Shows, it is difficult to describe this Lilac, none is more perfectly white, none has larger trusses, none has larger individual single flowers, none flowers and grows more freely, none is better for forcing.

We have a splendid photograph of this variety and will be glad to send a copy if requested.
